	Examiner Rodney M. Lindsey	Art Unit 3765	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. Figures 12 and 13 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "G'1" and "P'1b" from specification page 18 and "C4'" and "C5'" from specification page 20. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 is confusing as to whether the limitations following "i.e." and "such as" on lines 2 and 3 are positively being claimed. Such indefiniteness may be overcome for instance by deleting "i.e." and by changing "such as" to --being--. In claim 2, lines 12-14 "these arc parts" and "said arc parts" have no antecedent basis. Such indefiniteness may be overcome for instance by changing "these arc parts" to --the arc part-- and by changing "said arc parts" to --said arc part--. In claim 2, lines 27-29 "the first central point" and "both engaging parts" have no antecedent basis. Such indefiniteness may be overcome for instance by changing "the first central point" to --a first central point-- and by changing "both engaging parts" to --the first and third engaging parts--. In claim 3, lines 11-13 "these arc parts" and "said arc parts" have no antecedent basis. Such indefiniteness may be overcome for instance by changing "these arc parts" to --the arc part-- and by changing "said arc parts" to --said arc part--. In claim 4, line 8 "the other engaging part" has no antecedent basis. Such indefiniteness may be overcome for instance by changing "to the other engaging part" to --from one engaging part to another engaging part--.

Allowable Subject Matter

5. Claims 1-5 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 3765

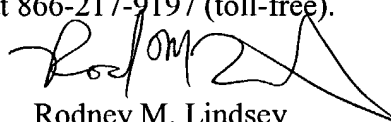

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note particularly, the support arrangements of Morin et al., Petit et al., Simpson, French patent to Grenier, British patent to Ellis, European patent to Ayres et al. and European patent to Salandin.
